

Application for admission as associate partner

Associate Partners are CAM/IM organisations that have been admitted by EUROCAM as Associate Partner due to their willingness and ability to participate in the activities of the Foundation. Associate partners have the same rights as Affiliated Organisations, except that they have **no right to vote**.

An organisation that wishes to be admitted as an Associate Partner must demonstrate to the Foundation that it has a structure or statutes that make it inappropriate for it to be admitted as an Affiliated Organisation and that it:

- Promotes the uptake and use of CAM/IM in national, European, and international health systems,
- Provides a written undertaking to support the aims, activities, and articles of association of the Foundation.

The applicant organisation should support one or more CAM therapies which are accepted and preferable practised in several countries.

An Associate Partner will be admitted as such by the General Board of EUROCAM by a three quarters majority of the votes cast in a meeting where at least two thirds of the Affiliated Organisations are represented.

EUROCAM has a legal status as a foundation, registered at the Netherlands Chamber of Commerce. Statutes and by-laws are on this page:
<https://cam-europe.eu/foundation-of-cam-umbrella-organisations/affiliated-organisations-constitute-general-board>

Please complete the application form and attach copies of the necessary documents.
