sequelae

limited in their
activity

- 48% suffer from
fatigue

CIM* use in cancer patients

*Complementary and Integrative Medicine

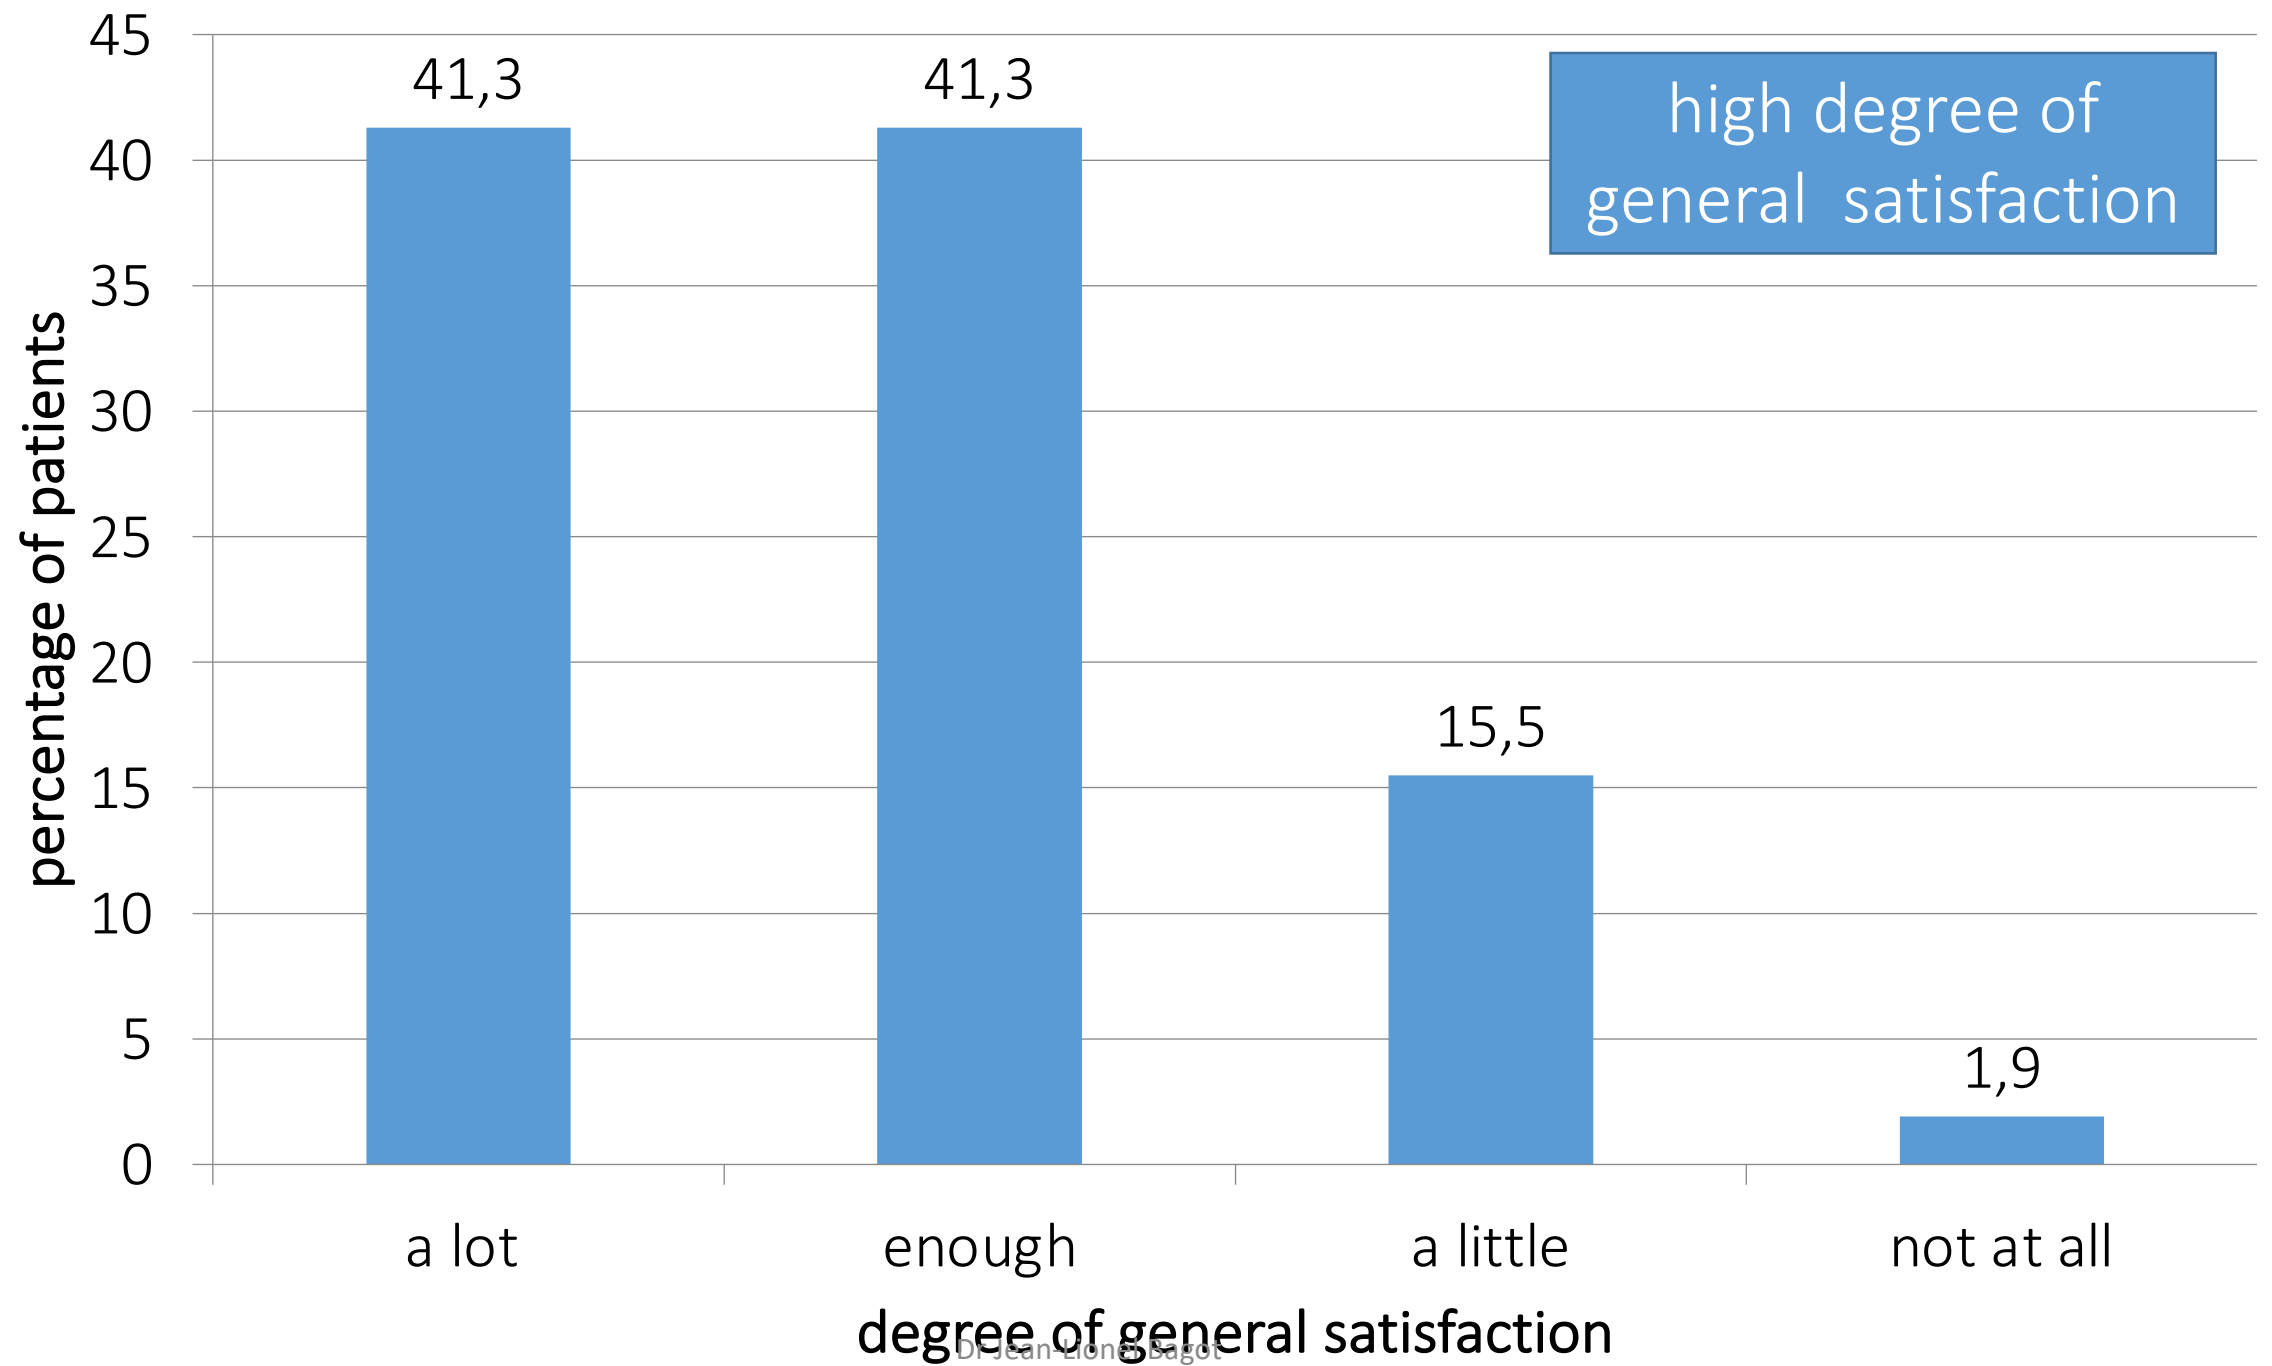

Prevalence of the use of complementary medicines by cancer patients in France
a multicentre cross-sectional descriptive survey
in 4 anticancer centres in Strasbourg

Dr Jean-Lionel Bagot
Jean-Lionel Bagot

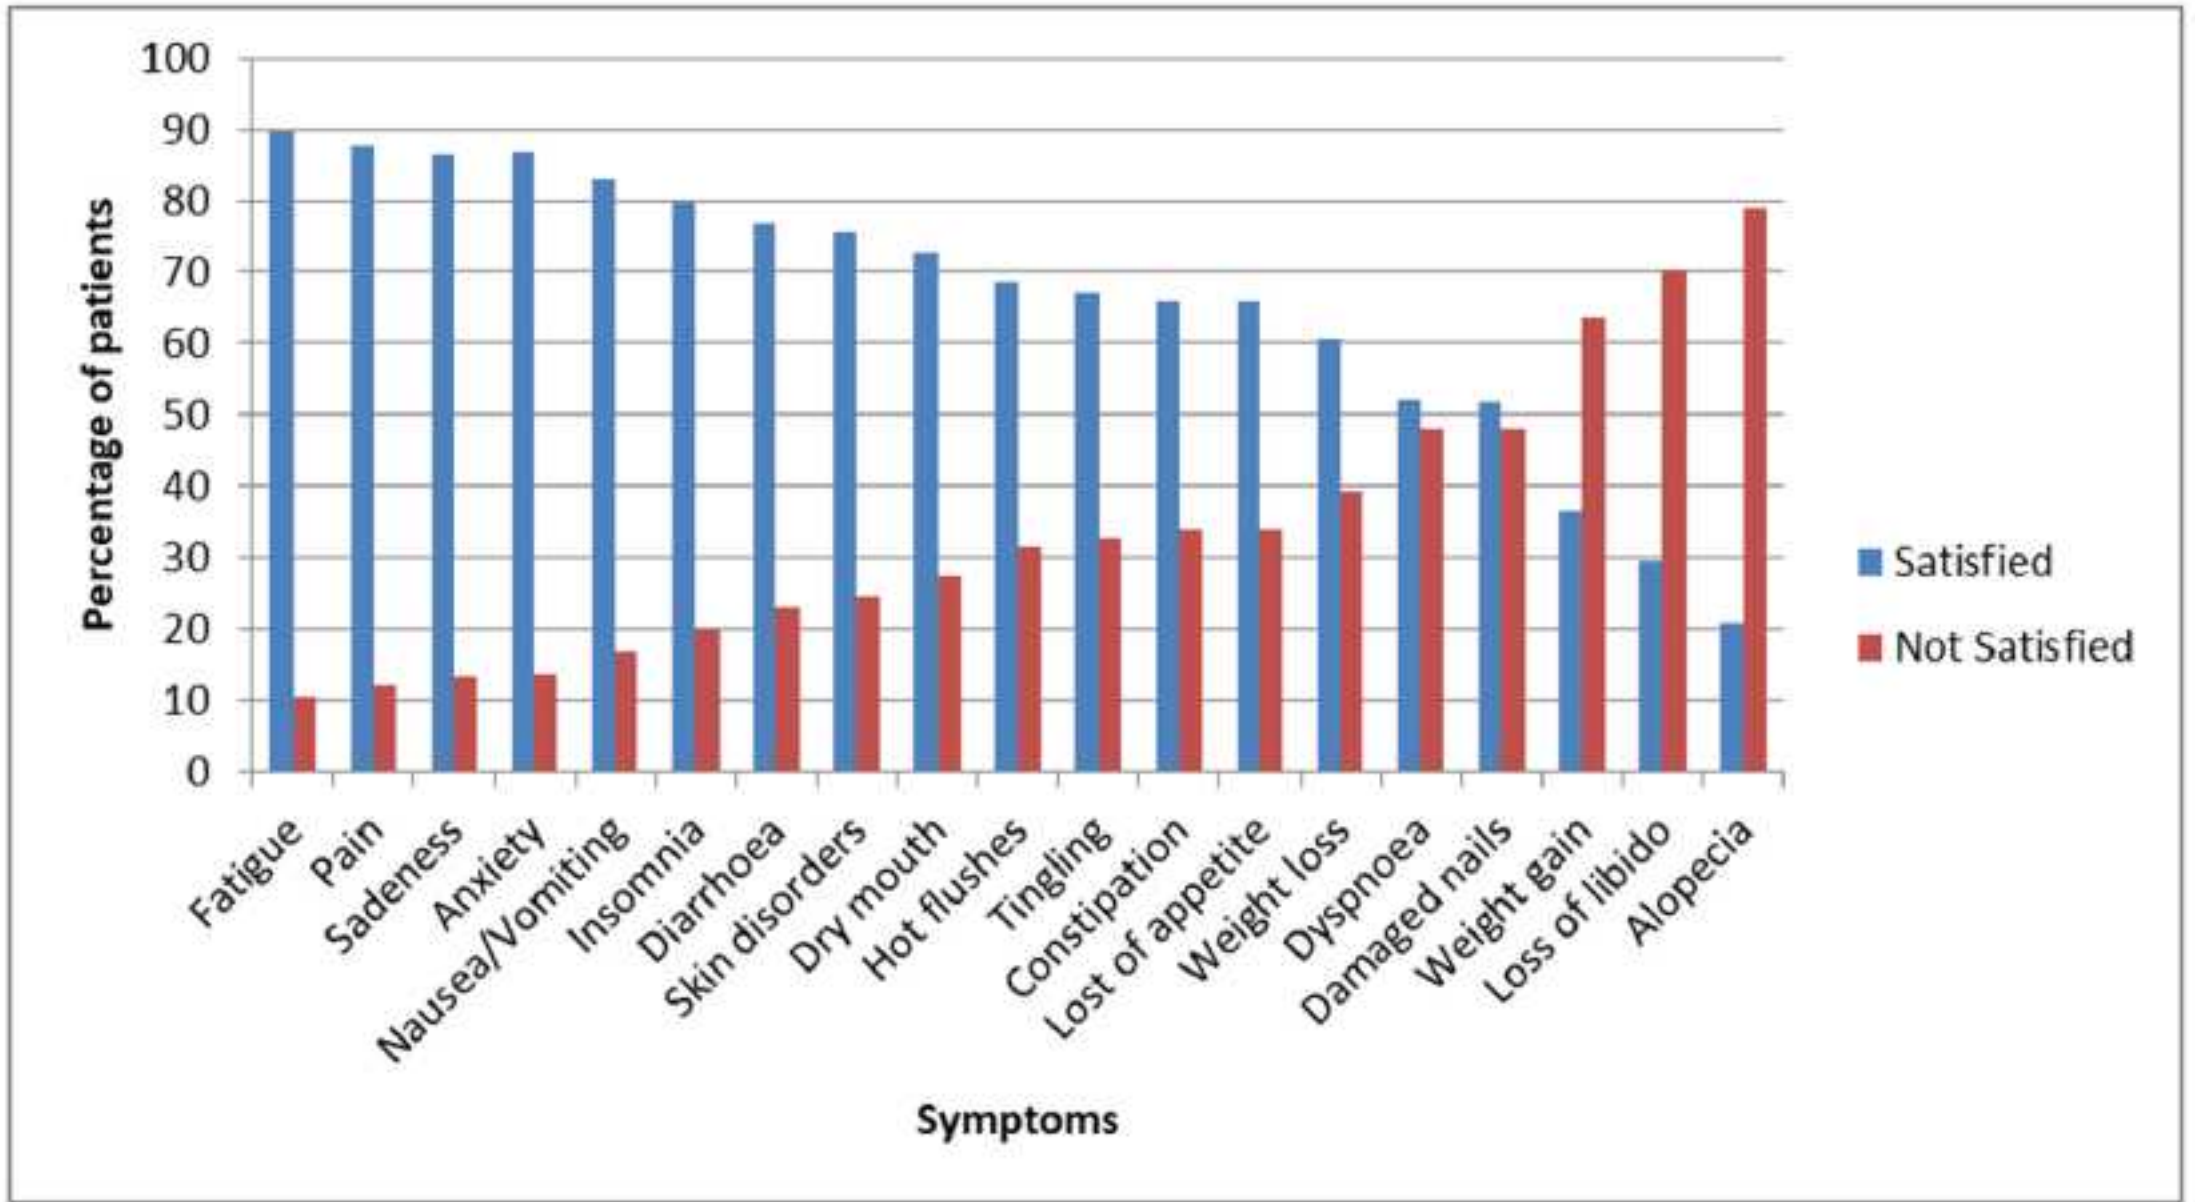

Of the 535 patients included, 47% are CIM users

The oncologist was informed in 82 % of cases

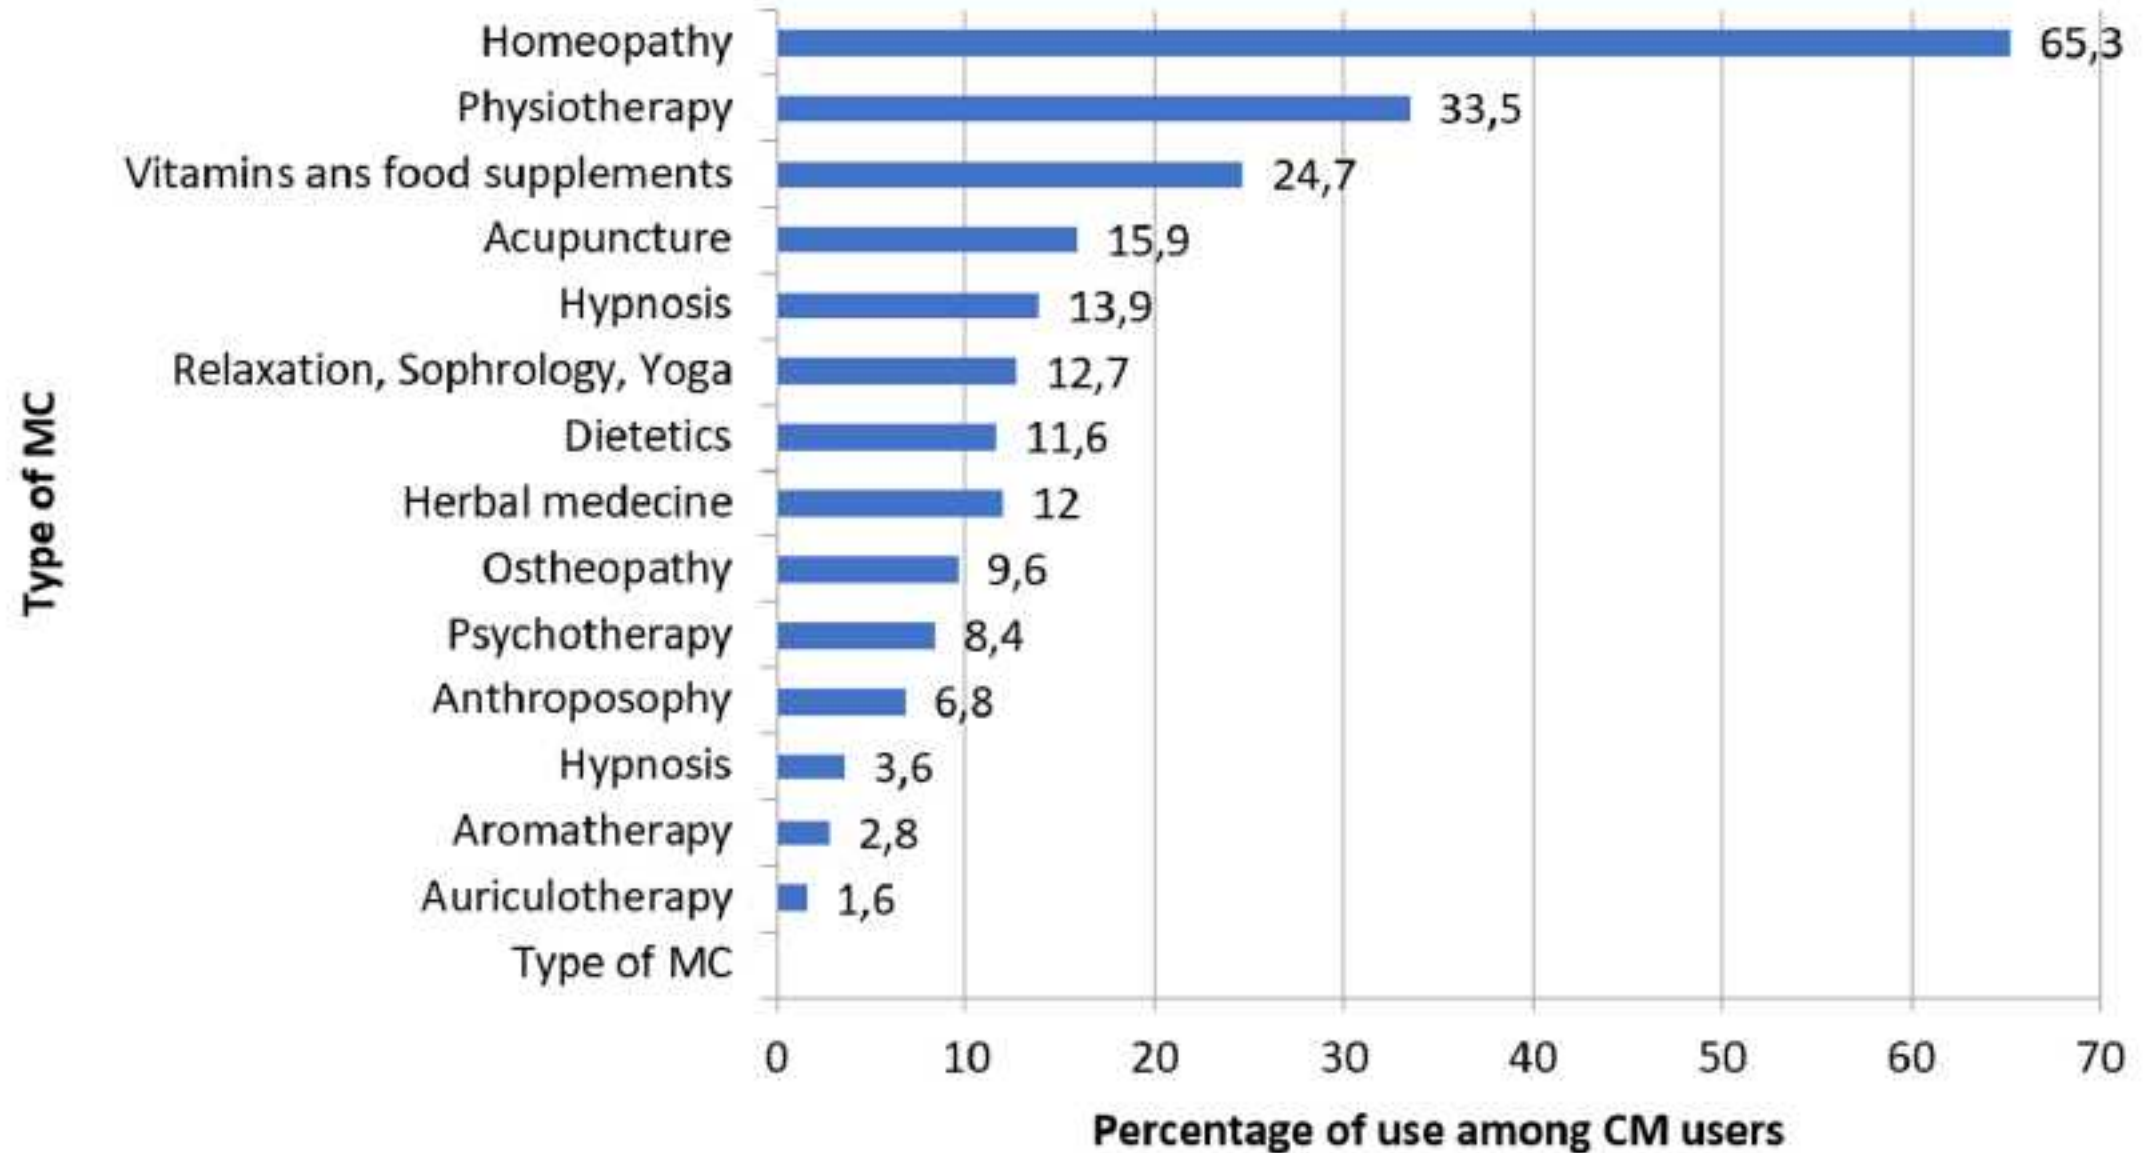

Bagot JL, Legrand A, Theunissen I. Use of Homeopathy in Integrative Oncology in Strasbourg, France: Multi-center Cross-Sectional Descriptive Study of Patients Undergoing Cancer Treatment. Homeopathy. 2021 In press

The recourse to CIM is often the answer to a medical need which cannot be addressed

Frequency of use of different CIMs among CM users in %

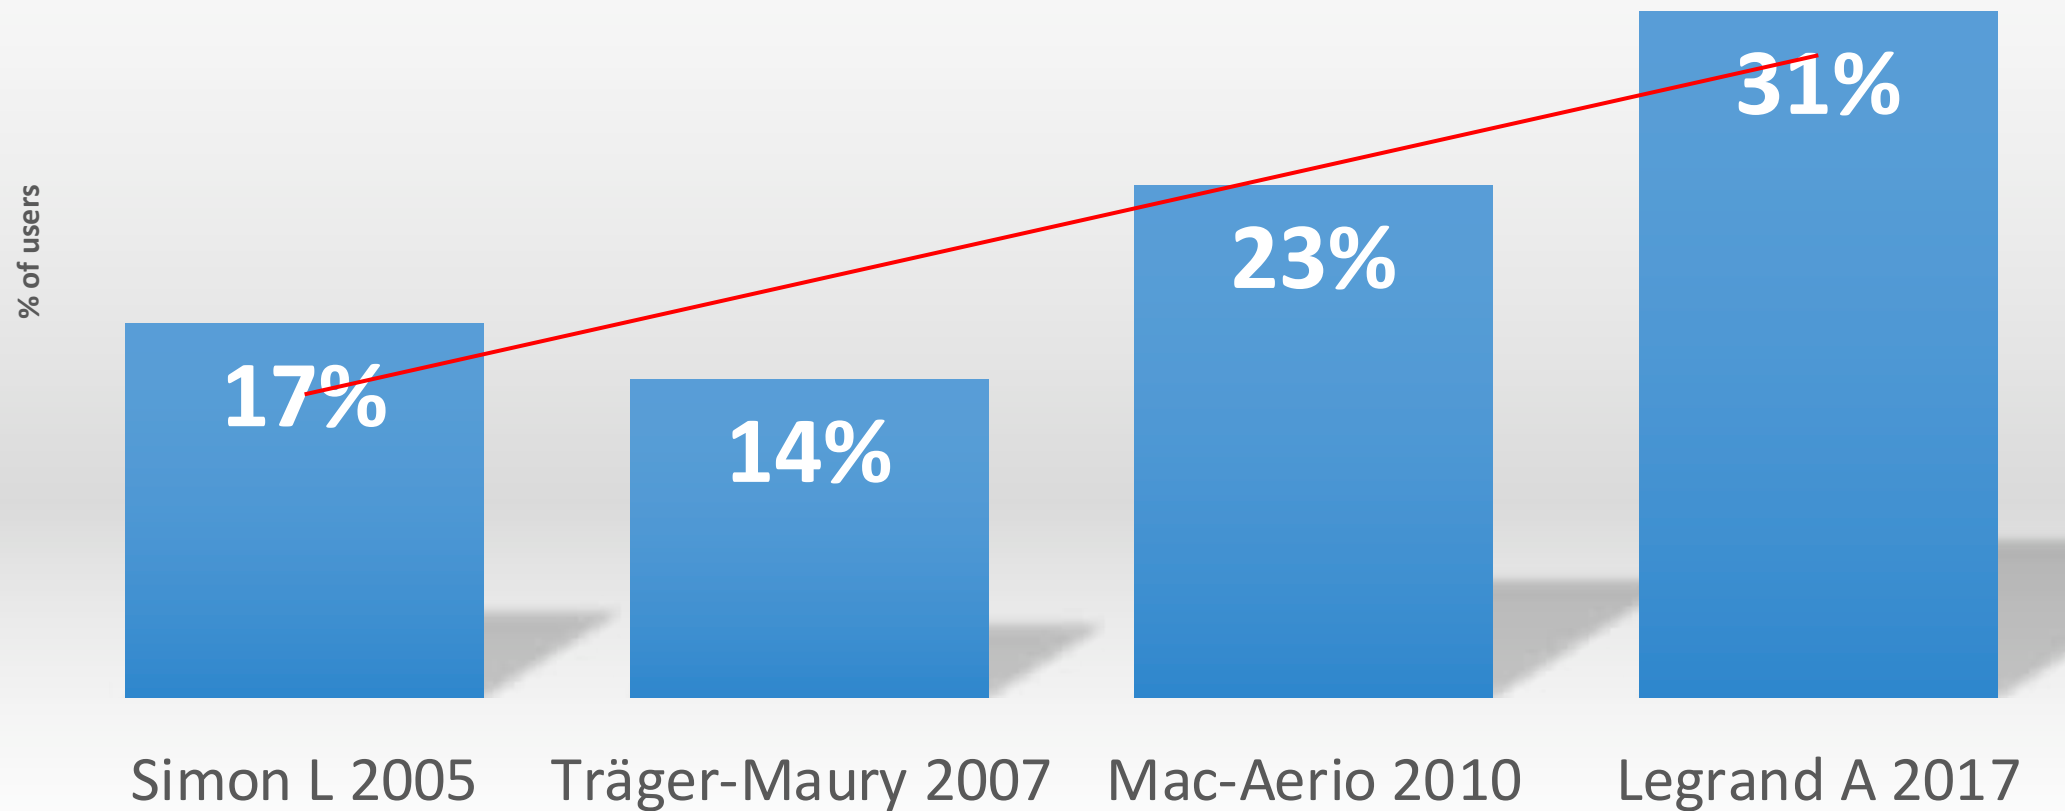

Homeopathy was
prescribed by a
doctor in 75 % of
cases

31% of homeopathy users in
supportive cancer care

Homeopathy prevalence of use doubled over 12 years in France
